Beth

*“Working in the field brings me to new places and diverse environments. I love the autonomy of my job and knowing that my work is contributing to our success.”*

Rich

**DPK Consulting** is a land surveying and 3D scanning firm. For over 20 years, our field technicians and CAD system teams have provided engineers with critical geospatial information that helps them design, update or preserve America's buildings, roads, bridges, canals, rail lines, airports, dams, water-supply systems, harbors, tunnels – too many applications to list. *If this sounds exciting, then DPK is great place for you to start your career!*

**DPK offers a close team culture with benefits and growth opportunities, including:**

- Competitive Salaries and Career Growth
- Simple IRA Plan, Employer Contribution
- Healthcare Benefits
- Professional Licensing Fees
- Paid Vacation, Holidays, Sick and Personal Days
- Performance-Based Bonuses
- Health & Safety Training
- Authorized Continuing Education

DPK Consulting is committed to fostering a diverse work environment where our team members respect one another and share a commitment to our company's values. DPK provides equal employment to all team members without regard to race, color, religion, gender, national origin, age, disability or sexual orientation.

For information about these positions, please contact DPK at 732-764-0100 or email resumes to [mycareer@dpkconsulting.net](mailto:mycareer@dpkconsulting.net)
